SPECIFIC REGULATION – 100 MIGLIA DEL MONVISO

ART 3. CONDITIONS OF PARTICIPATION

For this distance, in addition to the obligation to be 20 years old (those born in 2002 and earlier are admitted) and to be in possession of a regular medical certificate (see Article 5), it is strongly recommended to:

- be aware of the length and specificity of the race and have adequate preparation;
- having participated and completed a mountain running race with a distance equal to or greater than 80 km;
- have acquired, before the race, a real capacity for personal autonomy in the mountains to be able to better manage the problems related to this type of test and in particular:
- knowing how to face alone, without help, climatic conditions that could become difficult due to the altitude (night, wind, cold, fog, rain or snow);

Participation in one of the events referred to in art. 2 implies the unreserved acceptance of this regulation and the F.I.D.A.L. Inherent in Trail Running races (rule 252).

ART 4. SEMI AUTONOMY

The race is regulated by the principle of semi autonomy.

Semi-autonomy is defined as the ability of the member to proceed autonomously between a refreshment point and another for what concerns his food and liquid needs, as well as the needs that derive from environmental conditions or from unfavorable events such as problems physical or fatigue. It is important that the athlete is autonomous in the race course, knowing that he can, however, refer to several solid and liquid refreshment points and two Life Bases that will be communicated in the RoadBook.

- it is forbidden to be accompanied on the course by a person who is not regularly registered.

In any case, private assistance will be possible within 50 meters of the refreshment areas (and in any case within the areas determined by the organization), by a single person who must first identify himself with the managers of the refreshment point.

The life base is the place where the athlete can find a bag left with the organization upon delivery of the bib (to have their equipment in both bases it will be necessary to leave two bags). A hot meal, cots to rest and medical staff will be available in the life base.
